FLAT ROOF TENT

About Us

Shelter Structures' Brand Introduction

Shelter Structures was founded in 2003 and has evolved into a global leader in the prefabricated structures industry over 20 years. With a mission to pioneer sustainable development in construction, Shelter Structures has made significant strides in innovation and product development. Nowadays, we supplied tents all over the world and has supported the Olympics, Benz, BMW and many major events and international corporations

Flat Roof Tent

The flat roof tent features its flat roof design with double layer PVC fabric. The inflatable PVC cover create a 5-degree slope, which improve the ability of drainage capacity and snow resistance. In addition, its advertising fence is designed for advertising displays. This makes it perfect for commercial events, exhibition and all grand events.

Features

- Appearance of flat roof improves the space utilization and gives a luxurious and professional feel
- A natural drainage ditch is formed between two layers of tarpaulins and improves drainage performance
- The inflatable PVC fabric insulates the tent, keeping temperatures comfortable inside the tent
- No internal poles allow flexible interior design and improve attendee visibility
- Lightweight aluminum prefabricated in the factory enables quick setup and efficiency.
