

SHELTER STRUCTURES

FRAME TENTS

About Us

Shelter Structures' Brand Introduction

Shelter Structures was founded in 2003 and has evolved into a global leader in the prefabricated structures industry over 20 years. With a mission to pioneer sustainable development in construction, Shelter Structures has made significant strides in innovation and product development. Nowadays, we supplied tents all over the world and has supported the Olympics, Benz, BMW and many major events and international corporations

Frame Tents

The frame tent is made with aluminum alloy pipes, providing excellent stability and safety. The high-performance PVC coating makes the frame tent adaptable to various weather conditions and environments. Its stable anchoring systems allow it to be used on different terrains. It features 100% space utilization without central poles, suitable for outdoor parties and weddings.

Features

- Spacious interior with no center poles to provide more activity space
- Sturdy and stable structure provides strong resistance to wind and snow
- Easy to assemble and disassemble, making it suitable for use as a temporary tent
- Environmentally friendly materials used to minimize environmental pollution
- International fire safety standards of PVC fabrics to ensure a high level of safety

Frame

Main Materials	<ul style="list-style-type: none"> ▪ Aluminum Alloy Pipes ▪ Q235 Steel Components
Color	Original Color/ White Coating
Max Wind Load	60km/h
Max Snow Load	0.1kN/m ²
Features	<ul style="list-style-type: none"> ▪ Reliable metal frames made of durable and sturdy aluminum to ensure stability and long-term uses. ▪ Easy to setup and expand with prefabricated lightweight aluminum frame and modular design. ▪ Sturdy enough to resist various weather condition and withstand wind and snow loads.

Frame Tents	Tent Size	Eave Height	Frame	Outer Fabric	UV Coated & Waterproof	Fire Retardance
	10x10ft - 40x80ft	7.0ft	Aluminum Alloy Poles	430G PVC	Yes	Meet international fire safety standards (DIN4102:B1/M2)
