

SHELTER STRUCTURES

REVOLUTION TENTS

About Us

Shelter Structures' Brand Introduction

Shelter Structures was founded in 2003 and has evolved into a global leader in the prefabricated structures industry over 20 years. With a mission to pioneer sustainable development in construction, Shelter Structures has made significant strides in innovation and product development. Nowadays, we supplied tents all over the world and has supported the Olympics, Benz, BMW and many major events and international corporations

Revolution Tents

The revolution tent is a versatile clear span metal building offering a spacious, unobstructed interior. It features a flat roof with pointed or wavy shapes and a large-span structure that can reach 50-80m. Its durable and flexible design makes it ideal for large events, industrial applications, and a variety of commercial purposes.

Features

- Flexible choice of peaked or wavy roofs provides striking visual appeal
- Available in enclosed tent building or open canopy to fulfill your requirement
- Spacious area without internal support to maximize available space for events or industry
- The span can be up to 50-80 meters, suitable for large-scale events
- Standard and lightweight aluminum alloy frames for easy transportation and quick assembly.

Frame

Main Materials	<ul style="list-style-type: none"> ▪ Aluminum Alloy Frame ▪ Q235 Steel Components
Color	Original Color / White Coating / Black Coating
Max Wind Load	120km/h
Max Snow Load	0.5kN/m ²
Features	<ul style="list-style-type: none"> ▪ Reliable metal frames made of durable and sturdy aluminum to ensure stability and long-term uses. ▪ Easy to setup and expand with prefabricated lightweight aluminum frame and modular design. ▪ Sturdy enough to resist various weather condition and withstand high wind and snow loads.
