TFS TENTS

About Us

Shelter Structures' Brand Introduction

Shelter Structures was founded in 2003 and has evolved into a global leader in the prefabricated structures industry over 20 years. With a mission to pioneer sustainable development in construction, Shelter Structures has made significant strides in innovation and product development. Nowadays, we supplied tents all over the world and has supported the Olympics, Benz, BMW and many major events and international corporations

TFS Tents

The TFS tent is an upgraded version of the A-frame tent, featuring a unique curved column design and clear span construction. This innovative design not only eliminates internal supports, providing a spacious and unobstructed interior, but also enhances stability. With the distinctive peach-shaped roof and sturdy structure, the TFS tent is suitable for events, industry and military areas.

Features

- Present a sleek, modern peach-shaped appearance for enhanced visual appeal
- Curved columns and 25° roof slope lower the center of gravity and improve stability
- Use high-quality aluminum alloy frames that are recyclable and reusable to support sustainable development
- The internal unsupported curved column design maximizes the available space
- Tent span can be up to 80 meters, suitable for various scales of events and military uses.
